

Bardula studio light exhibition at KKDC PARIS.
Hyperspace.
Made of mirrors, where the captured light spread into an infinite reflection : the repetition of a two-dimensional picture gives the impression of a perspective that extends into the wall, beyond the mirror.

Bardula Studio Light Exhibition

📍 *Paris, France*

During the Maison & Objet 2015 fair, KKDC invites Bardula Studio to showcase a selection of recent works which uses LED light as medium. This exhibition, between sculpture, jewellery, design and architecture, is made of abstract geometrical installations and light art.
