

Geometric Sculptures Playing with Perspective

DESIGN Il y a 4 ans

TRENDING IN Sculpture

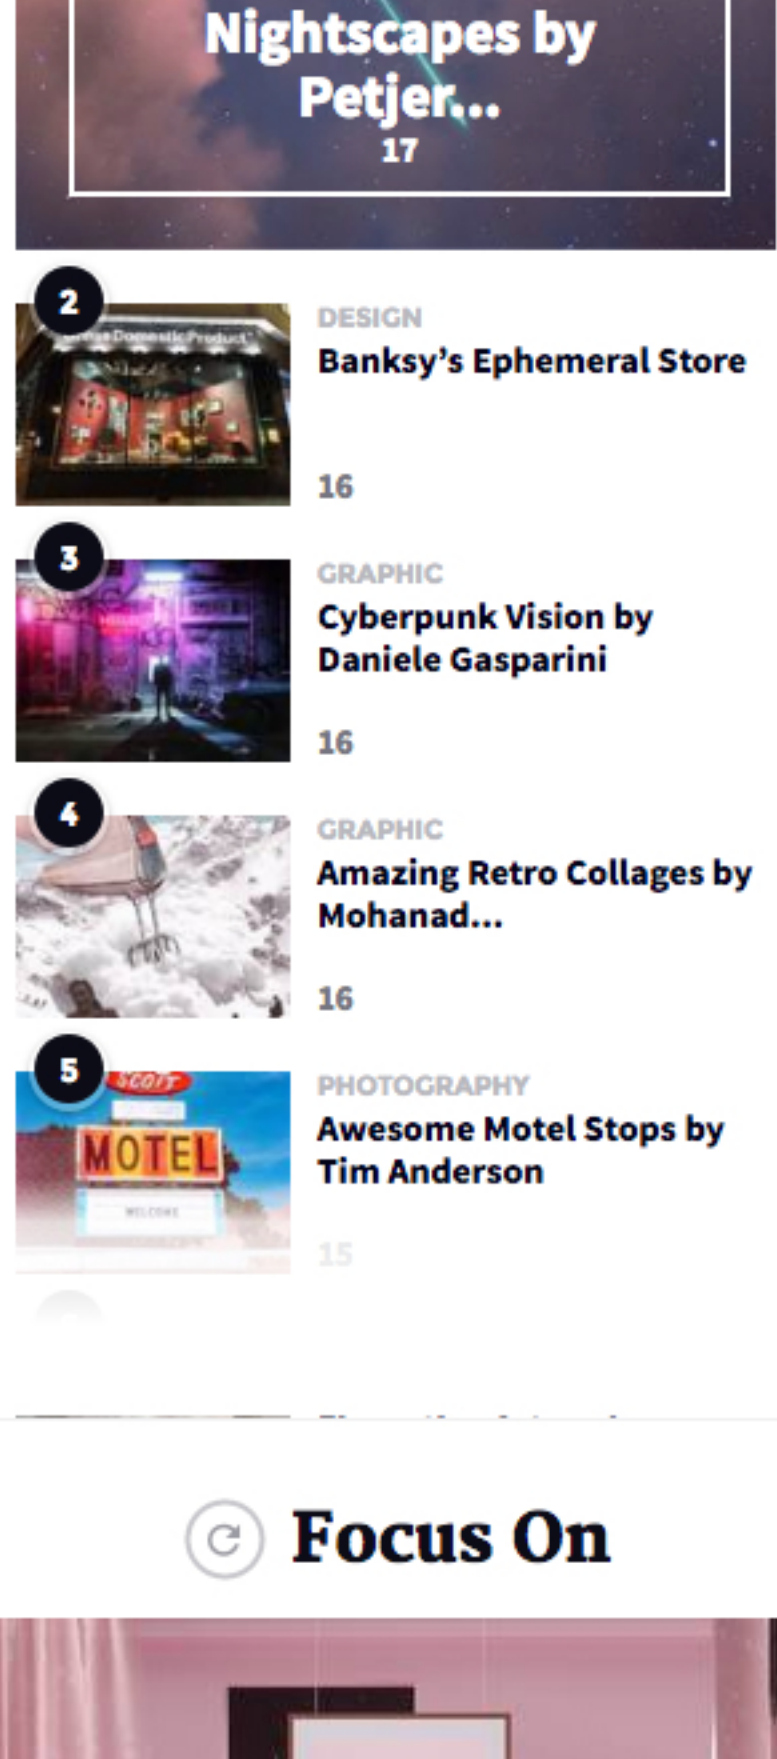

Du 31 mars au 3 avril, au Grand Palais, vous pourrez admirer les superbes sculptures et installations lumineuses et géométriques de l'artiste [Bardula](#), dans le cadre du Art Paris 2016. Jouant avec des effets de perspectives, Bardula étudie la relation entre couleur, forme, volume et réflexion, en s'appuyant sur une trame mathématique. Cette artiste est représentée par la galerie [La Ligne](#).
